" Damien pays attention to detail and is results oriented. He was responsible for VDI in Haiti during troubling times and was responsible for the safety of local staff, as well as physical assets. He is loyal and can be counted on more than one instance his judgement and steadfastness in the face of danger. Damien moved on to his next position as a direct result of a recommendation from our CEO at the time. I would highly recommend him for any job, particularly in security management or executive roles. He excels.
